

Building Circular

Department of Defense/Washington Headquarters Services

No. PBM-03-02

Date: January 15, 2003

Expiration: December 31, 2003

SUBJECT: Pentagon Secure Bypass (Route 110) Project Impact to Employee Parking

The purpose of this building circular is to inform DoD occupants of changes to the parking lot configuration in North Parking caused by construction activities for the Pentagon Secure Bypass (PSB) project. These changes will go in effect on January 20, 2003.

The Pentagon Secure Bypass Project includes the rerouting of Route 110 and the connection of North and South Parking lots. The project will be conducted in three Phases and will be completed in the Summer 2004. Parking disruptions will be minimized to the extent possible during this major security improvement. In the interim, use of public transit is strongly encouraged. Effective on January 20, 2003, the Visitors' Parking Lot for Columbia Island will be open to "G" permit holders (see map). On or about March 3, 2003, additional free parking will be available to all Pentagon permit holders in what is now the Visitor Parking lot on Army Navy Drive.

Phase I construction requires elimination of portions of lanes 41-56 and lane 64 (see map) beginning January 20, 2003. The jogging path along North Parking and Route 110 will be re-routed and signs will be posted directing pedestrians accordingly.

The Parking Management Office will continue to notify DoD occupants of parking changes throughout the project. Parking questions can be directed to the Pentagon Parking Management Office at (703) 697-6251, or by visiting Room 2E165 (on the Pentagon Concourse).
